MONITOR In-Transit Temperature Recorder

PROTECT YOUR TEMPERATURE SENSITIVE PRODUCTS

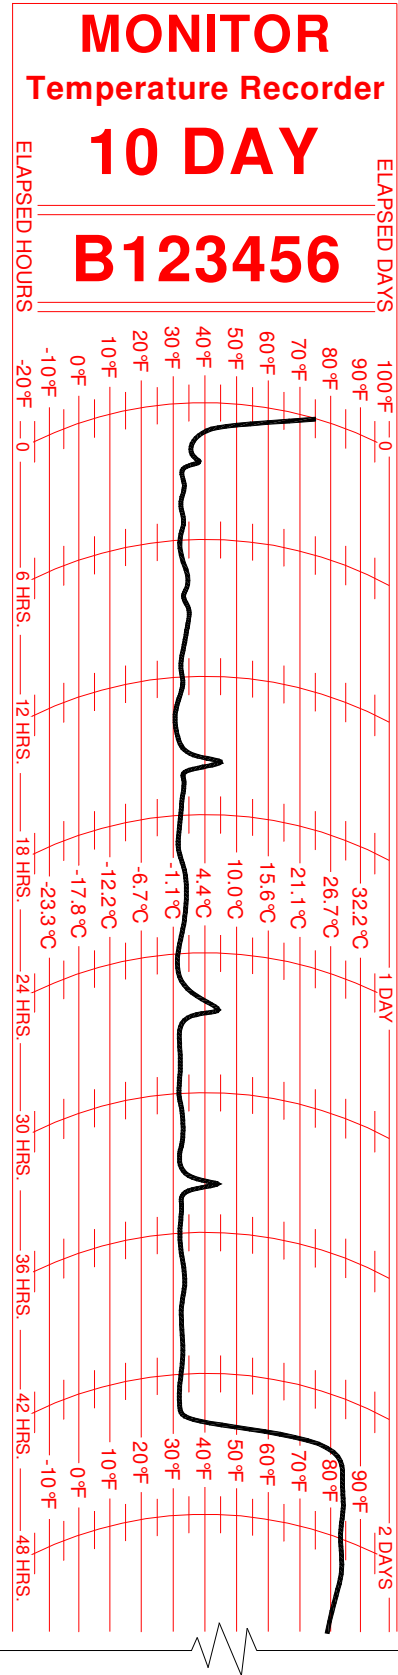

The Monitor In-Transit Temperature Recorder is an inexpensive, highly reliable battery powered time and temperature recorder. It generates a permanent strip-chart record of temperature conditions during storage or transportation of temperature sensitive products. At destination, the receiver simply removes the chart and reviews the temperature history of the shipment.

- HACCP Documentation¹
- Visible start-up verification
- Tamper evident seal with bar code and serial number
- Simple to operate
- NIST traceable calibration²
